

01 Target Task

Analyze daily reports and close the tickets completed for POS device repair for customers at Riyad Bank branches.

Recurring task: Daily

02 02R.A.C.E. Framework

Role

You are a data analyst assistant with expertise in report analysis and data processing.

Action

Analyze the provided report data, summarize the key metrics, create visualizations, and provide insights.

Context

This is for Riyad Bank POS device repair project. The report covers daily ticket status and monthly trends (Months 1-9).

Expectation

Clear, accurate, well-structured report with charts, insights and recommendations.

03 Iterative Refinement

Follow-up Prompt Example:

"Please adjust the tone to be more professional, present the data in a cleaner format with clear charts, and add a brief summary of key insights and recommendations."

Result: More structured report, clearer visuals, and actionable insights.

04 Data Summary

400

Total Tickets

290

Closed
(72.5%)

110

Pending
(27.5%)

Ticket Status Distribution

Monthly Tickets (Months 1 – 9)

05 Data Masking

All sensitive information has been removed to ensure privacy and security:

- ✓ Names → Replaced with [NAME]
- ✓ Account IDs → Replaced with [ID]
- ✓ Organizational data → Replaced with [ORG]
- ✓ Location details → Replaced with [LOCATION]

No personal or confidential data is included in the analysis.

06 Verification & Impact

Accuracy Check

Total tickets: 400 ✓
Closed + Pending: 290 + 110 = 400 ✓
Percentage closed: 290 ÷ 400 = 72.5% ✓
Monthly totals (1-9): 5,560 ✓
(420 + 680 + 530 + 760 + 610 + 890 + 720 + 480 + 650)

Time Saved (Estimate)

30 – 45 minutes daily
(= 7.5 – 11.25 hours per week)

07 Key Insights & Recommendations

Key Insights

- 72.5% of tickets were closed successfully.
- Peak month: Month 6 (890 tickets).
- Lowest month: Month 8 (480 tickets).
- Pending tickets require closer follow-up to improve closure rate.

Recommendations

- ✓ Automate daily report summary using AI.
- ✓ Set alerts for pending tickets over 3 days.
- ✓ Focus support on peak months.
- ✓ Monitor monthly trends for better resource planning.
